

Briefing Note

The Adaptation Fund (AF) finances projects that help vulnerable communities in developing countries adapt and build resilience to the effects of climate change while providing an innovative direct access modality that allows accredited national institutions in developing countries to access financing and manage projects directly.

Reviewed & Approved

- ✓ Efficient
- ✓ Effective
- ✓ Relevant

Pioneering Adaptation Finance

- Direct Access
- Replicable, scalable
- Flexible, localized

The AF creates tangible, positive results on the ground, focusing on adaptation and strengthening capacity in developing countries for all climate finance mechanisms. The AF has demonstrated its effectiveness as a global financial mechanism.

Key achievements of the Adaptation Fund

- ✓ **Operationalization of direct access to climate finance**, allowing national institutions to take on the implementation role typically undertaken by UN organizations and MDBs. Throughout the accreditation process, national entities build and enhance local capacity. The Direct Access model, pioneered by the AF, has proven replication value for other climate financing organizations, such as the Green Climate Fund (GCF);
- ✓ **Medium-term strategy 2018-2022** adopted in October 2017 emphasizing pillars of Action, Innovation and Learning. Strategy implementation plan approved in March 2018 to accelerate and enhance quality of adaptation action, scale up proven innovations, and share knowledge of effective adaptation. The strategy is aimed at empowering the most vulnerable, advancing gender equality, strengthening capacity, and building complementarity.
- ✓ **Relevance, efficiency and effectiveness** of AF projects and programmes validated with high marks by the second phase of the independent evaluation of the Fund in June 2018;
- ✓ **Implementation of Readiness Programme** for Climate Finance to build countries' capacities to access funding and develop projects for climate adaptation through regional and global knowledge sharing workshops and webinars, grants for technical assistance and South-South cooperation.
- ✓ **Strong, transparent safeguards** in adaptation projects and principles that promote human rights and gender equality while protecting marginalized groups and natural habitats;
- ✓ **Proven ability to ensure an accelerated, simplified, efficient and effective project cycle** combined with orientation towards results and performance-based measurements;
- ✓ **Record amount of US\$ 104.5 million** of funding for new projects approved in 2017
- ✓ **Record high of US\$ 264 million** in new funding requested across record 35 proposals for the 32nd Adaptation Fund Board meeting in October 2018, which shows growing demand for adaptation projects;
- ✓ **Funding window for regional projects and programmes** incorporated as a standing part of the Fund's operations to enable adaptation projects that cross borders;
- ✓ **Active civil society involvement at various levels**, such as allowing comments on proposals under consideration, monitoring during implementation, and participation in Board meetings.

The Paris Agreement and the Adaptation Fund

The Paris Agreement includes adaptation as a key component of the global response to climate change, and the Adaptation Fund is contributing to the objectives of the Agreement. Moreover, the decision taken by the first meeting of the Parties to the Paris Agreement (CMA) recognizes that the AF should formally serve the Agreement. Subsequent steps needed to serve the Agreement will be taken by COP24. Kyoto member Parties decided at CMP13 during COP23 that AF shall serve the Agreement. The new market mechanisms of the Paris Agreement also provide an opportunity to utilize the Fund's experience on monetizing carbon assets. To date, the AF has raised US\$ 199.4 million through carbon markets – a system that is fully operational.

The Paris Agreement promotes human rights by acknowledging climate change should be addressed in a way that respects vulnerable populations and gender equality. The AF has stayed ahead of this curve, adopting a policy in 2013 that ensures any projects supported by the Fund must promote positive environmental and social benefits, including respecting human rights, gender equality and vulnerable groups, something that has been specifically acknowledged, among others, by the United Nations Special Rapporteur on human rights and the environment. It further streamlined equal access across all Fund programmes and resources among women and men in March 2016 by approving a gender policy and action plan.

LONG-TERM CLIMATE FINANCE ROADMAP

- Roadmap established by COP21
- Landmark CMP decision at COP23 that AF shall serve the Paris Agreement
- Follow-up decisions expected at COP24

Briefing Note

The Adaptation Fund portfolio of concrete adaptation projects and programmes

The AF has transferred about 65 per cent of total committed funds to recipient countries. In total, US\$ 512 million has been allocated for climate adaptation projects/programmes, project formulation activities, South-South cooperation grants for accreditation support and environmental and social policy technical assistance grants, in a total of 77 countries with the majority of projects now in the implementation stage (see Annex II).

Currently 46 implementing entities are accredited to the AF of which 28 are National Implementing Entities in Africa, Latin America and the Caribbean, and Asia-Pacific that have direct access to adaptation financing. So far, 23 NIEs have received funding. The AFB and its secretariat actively collaborate with other climate funds, such as the Green Climate Fund, and share lessons learned from the unique experience of eight years implementing direct access to climate finance.

An opportunity to channel finance to effective adaptation to climate change

The AF is one of the most innovative and unique climate funds, and has achieved impressive progress in just a few years. The AF has proven its effectiveness as a highly efficient and transparent framework for directly channeling adaptation finance to developing countries. It is the only climate adaptation fund that includes the most vulnerable communities as a strategic priority.

The original source of revenue for the Fund – the sale of Certified Emission Reductions (CERs) accrued through 2 per cent levy on Clean Development Mechanism projects – has drastically diminished due to market forces. The Board has continued to attract funds through developed country donations, by delivering concrete, effective, and localized projects and continuing to innovate through pioneering programmes like Direct Access, flexible finance modalities, social and environmental risk management policies and gender action plans. The Fund also developed an alternative streamlined accreditation process to open doors to climate finance for smaller countries and organizations, and further has in place an innovative funding window for regional projects and programmes for multiple countries facing climate change issues that cross borders.

The Board has established a cap of 50 per cent of the cumulative resources in the trust fund for projects submitted by MIEs in order to ensure that all accredited NIEs can receive funding for at least one project. However, funding requests for the 32nd Adaptation Fund Board meeting in 2018 hit a record high of US\$ 264 million, and with more funding and sustainable funding sources AF could address that growing demand and reach even more vulnerable communities in developing countries with urgently needed climate adaptation solutions. The Board has also set a goal of raising US\$ 90 million per year from 2018-2019, and aligning goals to demand going forward.

Accessing Resources from the Adaptation Fund

Potential implementing entities are evaluated by independent experts of the Accreditation Panel for compliance with the AF's fiduciary standards and requirements of the AF environmental and social policy. Implementing entities can be national, regional or multilateral. There are currently 12 accredited multilateral implementing entities, six regional implementing entities and 28 national implementing entities of which 13 (46 per cent) come from either LDCs or SIDS. All developing country Parties to the Kyoto Protocol are eligible to submit a national entity for accreditation. Once accredited, implementing entities can apply for funding of up to US\$ 10 million per country for concrete adaptation projects or programmes.

National Implementing Entities (NIEs)

Antigua & Barbuda: Department of Environment (DoE)
Argentina: Unidad para el Cambio Rural (UCAR)
Armenia: Environmental Project Implementation Unit (EPIU)
Belize: Protected Areas Conservation Trust (PACT)
Benin: Fond National pour l'Environnement et le Climat (FNEC)
Bhutan: Bhutan Trust Fund for Environment Conservation (BTFFEC)
Chile: International Cooperation Agency (AGCI)
Cook Islands: Ministry of Finance and Economic Management (MFEM)
Costa Rica: Fundecooperación
Dominican Republic: Dominican Institute of Integral Dev. (IDDI)
Ethiopia: Ministry of Finance and Economic Dev. (MOFED)
Fed. States of Micronesia: Micronesia Conservation Trust (MCT)
India: National Bank for Agriculture & Rural Dev. (NABARD)
Indonesia: Partnership for Governance Reform (Kemitraan)

Jamaica: Planning Institute of Jamaica (PIOJ)
Jordan: Ministry of Planning and Int. Cooperation (MOPIC)
Kenya: National Environment Management Authority (NEMA)
Mexico: Mexican Institute of Water Technology (IMTA)
Morocco: Agency for Agricultural Development (ADA)
Namibia: Desert Research Foundation (DRFN)
Niger: Banque Agricole du Niger (BAGRI)
Panama: Fundación Natura
Peru: Trust Fund for Nat'l Parks and Protected Areas (PROFONANPE)
Rwanda: Ministry of Natural Resources (MINIRENA)
Senegal: Centre de Suivi Ecologique (CSE)
South Africa: National Biodiversity Institute (SANBI)
Uruguay: Agencia Nacional de Investigacion e Innovacion (ANII)
United Republic of Tanzania: National Environment Management Council (NEMC)

Regional Implementing Entities (RIEs)

Caribbean Development Bank (CDB)
Central American Bank for Economic Integration (CABEI)
Corporación Andina de Fomento (CAF)

Observatoire du Sahara et du Sahel (OSS)
Secretariat of the Pacific Regional Environment Programme (SPREP)
West African Development Bank (BOAD)

Multilateral Implementing Entities (MIEs)

African Development Bank (AfDB)
Asian Development Bank (ADB)
International Fund for Agricultural Development (IFAD)
Inter-American Development Bank (IDB)
European Bank for Reconstruction and Development (EBRD)
United Nations Environment Programme (UNEP)

United Nations Educational, Scientific and Cultural Organization (UNESCO)
United Nations Development Programme (UNDP)
United Nations World Food Programme (WFP)
UN-Habitat
World Bank
World Meteorological Organization (WMO)

ADAPTATION FUND

Annex II:

Projects, programmes and readiness grants approved for funding from the Adaptation Fund, as of 25 September 2018

Project, programmes, project formulation grants (PFG), and readiness grants approved for funding from the Adaptation Fund

COUNTRY	PROJECT TITLE	AGENCY	BUDGET (US\$)
---------	---------------	--------	---------------

Implemented by National Implementing Entities

Antigua and Barbuda	An integrated approach to physical adaptation and community resilience in Antigua and Barbuda's northwest McKinnon's watershed (including PFG)	DoE	10,000,000
Antigua and Barbuda	Environmental and social and gender policy technical assistance grant	DoE	25,000
Argentina	Enhancing the Adaptive Capacity and Increasing Resilience of Small-size Agriculture Producers of the Northeast of Argentina (including PFG)	UCAR	5,670,000
Armenia	Artik city closed stone pit and flood management pilot project (PFG)	EPIU	27,000
Armenia	Strengthening land based adaptation capacity in communities adjacent to protected areas in Armenia (PFG)	EPIU	30,000
Benin	Adaptation of Cotonou Lagoon ecosystems and human communities to sea level rise and extreme weather events impacts (PFG)	FNEC	29,000
Benin	Environmental and social policy technical assistance grant	FNEC	20,000
Burundi	Accreditation support project	CSE	50,000
Cabo Verde	Accreditation support project	CSE	47,449
Chad	Accreditation support project	CSE	49,592
Chile	Enhancing resilience to climate change of the small agriculture in the Chilean region of O'Higgins (including PFG)	AGCI	9,990,000
Cook Islands	"Akamatutu'anga kia Tukatau te Ora'anga ite Pa Enuu" Pa Enuu Action for Resilient Livelihoods (PEARL)	MFEM	2,999,125
Costa Rica	Reducing the vulnerability by focusing on critical sectors (agriculture, water resources and coastlines) in order to reduce the negative impacts of climate change and improve the resilience of these sectors (including PFG)	Fundecooperación	10,000,000
Costa Rica	Environmental and social policy technical assistance grant	Fundecooperación	20,000
Costa Rica	Gender policy technical assistance grant	Fundecooperación	10,000
Côte d'Ivoire	Accreditation support project	CSE	50,000
Dominica	Accreditation support project	DoE	50,000
Dominican Republic	Enhancing climate resilience in San Cristobal Province, Dominican Republic: Integrated Water Resources Management and Rural Development Programme (PFG)	IDDI	30,000
Ethiopia	Climate Smart Integrated Rural Development Project	MOFEC	9,987,910

Project, programmes, project formulation grants (PFG), and readiness grants approved for funding from the Adaptation Fund

COUNTRY	PROJECT TITLE	AGENCY	BUDGET (US\$)
---------	---------------	--------	---------------

Implemented by National Implementing Entities

Federated States of Micronesia	Environmental and social policy technical assistance grant	MCT	20,000
Federated States of Micronesia	Practical Solutions for Reducing Community Vulnerability to Climate Change in the Federated States of Micronesia (including PFG)	MCT	1,000,000
Federated States of Micronesia	Gender policy technical assistance grant	MCT	10,000
Guinea	Accreditation support project	CSE	47,449
India	Building Adaptive Capacities of Communities, Livelihoods and Ecological Security in the Kanha-Pench Corridor of Madhya Pradesh (including PFG)	NABARD	2,584,493
India	Building Adaptive Capacities of Small Inland Fishermen Community for Climate Resilience and Livelihood Security, Madhya Pradesh, India (including PFG)	NABARD	1,820,500
India	Climate Proofing of Watershed Development Projects in the States of Tamil Nadu and Rajasthan (including PFG)	NABARD	1,374,055
India	Climate Smart Actions and Strategies in North Western Himalayan Region for Sustainable Livelihoods of Agriculture-Dependent Hill Communities	NABARD	969,570
India	Conservation and Management of Coastal Resources as a Potential Adaptation Strategy for Sea Level Rise	NABARD	689,264
India	Enhancing Adaptive Capacity and Increasing Resilience of Small and Marginal Farmers in Purulia and Bankura Districts of West Bengal (including PFG)	NABARD	2,540,854
India	Environmental and social and gender policy technical assistance grant	NABARD	25,000
Indonesia	Community Adaptation for Forest-Food Based Management in Saddang Watershed Ecosystem (PFG)	Kemitraan	30,000
Indonesia	Building coastal city resilience to climate change impacts and natural disasters in Pekalongan City, Central Java Province (PFG)	Kemitraan	30,000
Jamaica	Enhancing the Resilience of the Agricultural Sector and Coastal Areas to Protect Livelihoods and Improve Food Security (including PFG)	PIOJ	9,995,000
Jordan	Increasing resilience of the poor and vulnerable communities to climate change impacts in Jordan through implementing innovative projects in water and agriculture in support of adaptation to climate change (including PFG)	MOPIC	9,255,500
Kenya	Integrated programme to build resilience to climate change and adaptive capacity of vulnerable communities in Kenya	NEMA	9,998,302
Kenya	Environmental and social and gender policy technical assistance grant	NEMA	25,000
Malawi	Accreditation support project	NEMA	50,000
Maldives	Accreditation support project	DoE	50,000
Mali	Accreditation support project	CSE	47,449
Morocco	Project of Adaptation to Climate Change – Oases Zones (including PFG)	ADA	10,000,000
Morocco	Environmental and social policy and gender policy technical assistance grant	ADA	25,000
Namibia	Community-based Integrated Farming System for Climate Change Adaptation (PFG)	DRFN	30,000
Namibia	Pilot Desalination Plants Using Renewable Power and Membrane Technology (including PFG)	DRFN	5,029,674
Namibia	Environmental and social and gender policy technical assistance grant	DRFN	20,000
Niger	Accreditation support project	CSE	47,449

Project, programmes, project formulation grants (PFG), and readiness grants approved for funding from the Adaptation Fund
