

ADAPTATION FUND

AFB/PPRC.35/27/Add.1
17 March 2025

Adaptation Fund Board
Project and Programme Review Committee
Thirty fifth Meeting
Bonn, Germany, 8-9 April 2025

Agenda Item 6c)

**PROJECT FORMULATION GRANT FOR
ARGENTINA, BOLIVIA, BRAZIL, COLOMBIA, CHILE, ECUADOR,
PERU, SURINAME, URUGUAY, VENEZUELA**

I. Background

1. The Board at its eleventh meeting discussed the document "Funding for Project Formulation Costs" (AFB/11/6) and agreed, in its Decision B.11/18, that:

- i. project formulation grants (PFG) should be given once a project concept has been approved
- ii. consideration should be given in terms of differentiating between NIEs and MIEs, since some NIEs might have financial difficulties in trying to formulate project or programme proposals;
- iii. a flat rate should be given for project formulation costs;
- iv. a list of eligible activities and items still needed to be prepared; v. the grant should be additional to the project cost; and
- v. the fate of funds if the final project document was rejected should be determined.

2. There was consensus that a three-tiered system should be considered for project formulation grants: endorse a project concept with a PFG amount, endorse a project concept without a PFG amount, or reject the project concept.

3. Following the discussion, the Board decided:

To request the secretariat to reformulate the document, to include a comparison of eligible activities provided by other funds for project formulation grants, to take into account guidance provided by the Board at the present meeting, and to submit the document to the Board at its twelfth meeting, through the EFC. The EFC should review and finalize the process and policy of the project formulation grant focusing, in particular, on: the issue of unspent project funds; the procedures followed by other funds in that regard; and the determination of a flat-rate.

4. A document was prepared by the secretariat in response to the above mandate and presented at the third EFC meeting, which made specific recommendations to the Board at its twelfth meeting. Having considered the recommendation of the Ethics and Finance Committee, the Board, in its Decision B.12/28, decided that:

(a) Project Formulation Grants (PFGs) will only be made available for projects submitted through NIEs. The Board would continue reviewing the question of PFGs for projects submitted through MIEs and would solicit comments from members and alternate members by February 14, 2011; the views would be compiled by the secretariat for presentation to the Board at its March 2011 meeting;

(b) If a country required a project formulation grant, a request should be made at the same time as the submission of a project concept to the secretariat. The secretariat will review and forward it to the PPRC for a final recommendation to the Board. A PFG could only be awarded when a project concept was presented and endorsed;

(c) A PFG form, reproduced in Annex V, should be submitted;

- (d) Only activities related to country costs would be eligible for PFG funding;*
- (e) A flat rate of up to US\$30,000 shall be provided, inclusive of the management fee, which cannot exceed 8.5 per cent of the grant amount. The flat fee would be reviewed by the Board at its thirteenth and all subsequent meetings;*
- (f) If the final project document is rejected, any unused funds shall be returned to the Adaptation Fund Trust Fund;*
- (g) Once a project/programme formulation grant is disbursed, a fully developed project document should come to the Board for approval within 12 months. No additional grants for project preparation can be received by a country until the fully developed project/programme document has been submitted to the Board; and*
- (h) The Trustee was instructed to remove the set-aside of US\$100,000 for project preparation that had been decided at the June 2010 meeting, as project preparation would be approved on a project-by-project basis.*

5. In its twenty-fourth meeting, the Board had initiated steps to launch a pilot programme on regional projects and programmes, not to exceed US\$ 30 million and had requested the secretariat to prepare for the consideration of the Board a proposal for such a pilot programme (Decision B.24/30). In its twenty-fifth meeting, the secretariat submitted such document and the Board decided to:

- (a) Approve the pilot programme on regional projects and programmes, as contained in document AFB/B.25/6/Rev.2;*
- (b) Set a cap of US\$ 30 million for the programme;*
- (c) Request the secretariat to issue a call for regional project and programme proposals for consideration by the Board in its twenty-sixth meeting; and*
- (d) Request the secretariat to continue discussions with the Climate Technology Center and Network (CTCN) towards operationalizing, during the implementation of the pilot programme on regional projects and programmes, the Synergy Option 2 on knowledge management proposed by CTCN and included in Annex III of the document AFB/B.25/6/Rev.2.*

(Decision B.25/28)

6. The approved document AFB/B.25/6/Rev.2 contained provisions for the approval of project formulated grants for regional project and programme proposals, at different development stages, as follows:

“It is proposed that the Board open a structured call for MIEs and RIEs to submit pre-concepts for regional projects and programmes. The optional pre-concepts would be very brief proposals of maximum 5 pages that would explain the proposed regional adaptation project/programme. The pre-concepts would be screened and technically reviewed by the

secretariat, and subsequently reviewed by the PPRC. Together with the pre-concept, the proponent could submit a Phase I PFG request, up to the maximum level of US\$ 20,000. While endorsing the pre-concept, the Board could also approve the Phase I PFG request. The endorsement of the pre-concept would not create an obligation for the Board for later funding. As the next step, the proponent would submit a concept, and with it the proponent could submit a Phase II PFG request. The maximum AFB/PPRC.18/25/Add.1 level of the Phase II PFG would be US\$ 80,000 for proposals that had been previously granted Phase I PFG, and US\$ 100,000 for proposals that bypassed the optional pre-concept stage. While endorsing the concept, the Board could also approve the Phase II PFG request. The endorsement of the concept would not create an obligation for the Board for later funding, as it is the case for the national projects. The final stage of the proposal process would be the submission of the fully-developed regional project document”.

II. The Project Formulation Grant Request

7. This addendum to the document AFB/PPRC.35/27] “Proposal for Argentina, Bolivia, Brazil, Colombia, Chile, Ecuador, Peru, Suriname, Uruguay, Venezuela” includes a request for a Project Formulation Grant, requesting a budget of US\$ 50,000, which was received by the secretariat along with the concept for the regional programme AF00000416 “*An Integrated System for Evaluating Hydrological Status and Outlooks to Support key Economic Sectors and Vulnerable Communities in South America, to Adapt to Climate Change and Build Resilience*”. This proposal was submitted by World Meteorological Organization (WMO), which is a Multilateral Implementing Entity of the Adaptation Fund, in time for consideration by the Adaptation Fund Board at its forty-fourth Board meeting.

8. In accordance with Decision B.12/28, paragraph (b), the secretariat carried out an initial review of the PFG request and found that the document provided detailed information on the use of the requested funds. The proposed activities were aligned with the goal of the project and would support comprehensive consultation process; and concept note development.

9. Therefore, the PPRC may want to consider and recommend to the Board to approve the PFG Request, provided that the related pre-concept proposal is endorsed.

Revised PFG Submission Form¹ (additions in red)

Project Formulation Grant (PFG)

Submission Date: 29 November 2024

Adaptation Fund Project ID:

Country/ies: Argentina, Bolivia, Brazil, Colombia, Chile, Ecuador, Peru, Surinam, Uruguay, Venezuela

Title of Project/Programme: *An integrated system for evaluating hydrological status and outlooks² to support key economic sectors and vulnerable communities in South America, to adapt to climate change and build resilience.*

Type of IE (NIE/RIE/MIE): **MIE**

Implementing Entity: World Meteorological Organization

Executing Entity/ies:

- **Argentina:** To be determined in next stage
- **Bolivia:** Servicio Nacional de Meteorología e Hidrología de Bolivia
- **Brazil:** Agência Nacional de Aguas (ANA)
- **Chile:** Dirección Meteorológica de Chile
- **Colombia:** Instituto Nacional de Hidrología, Meteorología y Estudios Ambientales de Colombia
- **Ecuador:** Instituto Nacional de Meteorología e Hidrología de Ecuador
- **Perú:** To be determined in next stage
- **Suriname:** Ministry of Public Works
- **Uruguay:** To be determined in next stage
- **Venezuela:** Instituto Nacional de Meteorología e Hidrología
- **ACTO:** Amazon Cooperation Treaty Organization
- **CIC:** Intergovernmental Coordination Committee of the La Plata Basin Countries
- **PROHMSAT Regional Center³**

A. Project Preparation Timeframe

Start date of PFG	06/01/25
Completion date of PFG	07/31/25

B. Proposed Project Preparation Activities (\$)

List of Proposed Project Preparation Activities	Output of the PFG Activities	US\$ Amount	Budget note⁴
--	-------------------------------------	--------------------	--------------------------------

¹ As presented in AFB/PPRC.33/40 Annex 1.

² HydroSOS, <https://wmo.int/es/node/21458>

³ Regional Center hosted by National Water Institute (INA) and National Meteorological Service (SMN) of Argentina under the Hydrometeorological Forecasting and Early Warning System for La Plata Basin Project

⁴ The proposal should include a detailed budget with budget notes indicating the break-down of costs at the activity level. It should also include a budget on the Implementing Entity management fee use.

Preparatory virtual meetings in preparation for the face-to-face workshop. of the WMO Working Group – Hydrology and Water Resources (WG-HWR) and key stakeholders.	-Participants to the face-to-face workshop identified. -Specific activities to be included in the project to achieve the outputs and potential demonstration cases per country identified	0 (none)	These activities will be carried out as part of WMO regular activities but with emphasis on project preparation during Dec 2024 and the first months of 2025.
Face-to-face workshop, with the participants identified during the preparation stage	-Activities, milestones, and indicators per output -Roles and responsibilities of each stakeholder in the project -Project resources allocation	40,000	Travel and DSA for approximately 20 participants, meeting expenditures.
Consultant to support concept note development	Concept note with the face-to-face output incorporated and including environmental and social risk management plan, M&E.	10,000	Self-service agreement (SSA) for a consultant/s.
Total Project Formulation Grant		50,000 (*)	

(*) It includes the 7% WMO Project Support Cost

Please describe below each of the PFG activities and provide justifications for their need and for funding required:

1. To maximize the benefit of the face-to-face workshop, we will conduct a series of virtual preparatory meetings with key stakeholders from December 2024 and during the first months of 2025. These meetings will help identify key participants for the face-to-face meeting and request specific information on human and technological resources, level of engagement with other institutional actors, potential beneficiary sectors, synergies, and complementarity of this project proposal with ongoing projects and consistency with national and subnational development strategies. The resulting information will also be input to the face-to-face workshop.
2. Face-to-face workshop of the WG-HWR and key stakeholders

A project to implement HydroSOS in Regional Association III has been developed by the WMO WG-HWR. The project preparation initiated during a face-to-face meeting in Bogota, Colombia in

December 2022 and continued in a second face-to-face meeting in Asunción, Paraguay in December 2023. Participants from 10 out of the 12 countries participated and contributed to the project development. It was then that the Adaptation Fund was identified as a potential source of funding. The first two meetings, focused on technical aspects that are part of component 1 of the project. During this proposed workshop to be funded by the AF Grant, more information and details will be gathered, to develop components 2 and 3 of the project.

Country specific information will be gathered to advance with the design of demonstration cases, training needs, tools, etc. Due to the limited resources available for 11 countries, a consensus will be sought among countries in the prioritization of activities at local, national, and regional levels.

3. Consultant/s will be hired to assist in the preparation of the concept note, incorporating the output of the face-to-face workshop, and focusing on environmental, social and gender policies of the Adaptation Fund, as well as the alignment of project components to the countries' NDCs.

For LLA Projects only:

If requesting additional funding for LLA projects to enable devolving decision making to the local level, please specify the activities that would directly serve to enable devolving decision making to the lowest appropriate level and enable local actors to make informed decisions on how adaptation actions are defined, prioritized, designed, and implemented:

Please provide justifications for their need and for the amount of additional funding required:

C. Implementing Entity

This request has been prepared in accordance with the Adaptation Fund Board's procedures and meets the Adaptation Fund's criteria for project identification and formulation.

De mi mayor consideración:

ADAPTATION FUND

En mi calidad de autoridad designada para el Fondo de Adaptación en Argentina, confirmo que la nota de pre-concepto referenciada está en consonancia con las prioridades del gobierno nacional en la implementación de actividades de adaptación para reducir los impactos adversos y los riesgos que plantea el cambio climático en América del Sur. En consecuencia, me complace apoyar la propuesta de proyecto anterior con el apoyo del Fondo de Adaptación. Si se aprueba, el proyecto será implementado por la Organización Meteorológica Mundial (OMM).

Subject : Pre-concept note "An integrated system for evaluating hydrological status and outlooks to support key economic sectors and vulnerable communities in South America to adapt to climate change and build resilience".

The Ministry of the Environment of Peru is the governing body of the National Climate Change Strategy of Peru and the Designated Authority for the Adaptation Fund through the General Directorate of Climate Change and Desertification.

On this framework, we received the pre-concept note "An integrated system for evaluating hydrological status and outlooks to support key economic sectors and vulnerable communities in South America to adapt to climate change and build resilience". First, we would like to underline that the project will contribute improving the adaptation capacities of key socio-economic sectors, in particular vulnerable communities, to climate change through the provision of accessible, user oriented, gender responsive, and fit-for-purpose hydrometeorological information and services in Argentina, Bolivia, Brazil, Colombia, Chile, Ecuador, Guyana, Paraguay, Peru, Surinam, Uruguay y Venezuela.

Finally, I am pleased to endorse the pre-concept note mentioned above with support from the Adaptation Fund. If approved, we will ensure that the project is aligned with our climate change adaptation targets and that is duly coordinated with the World Meteorological Organization (WMO).

Sincerely yours,

Berloska Quispe Estrada
